TERRITORY WEST OF THE MISSISSIPPI.

Gov. Hoch of Kansas Says it is Soon to Predominate in National Councils.

STATES SHOULD NOT BE BIG.

Easier to Make Mistake in Formation of One Than to Rectify Error.

St. Louis, April 17 .- The convention commercial clubs of the southwest closed here tonight with a banquet at the Jefferson hotel, attended by several handred delegates and at which the governors of six states and territories were the guests of honor.

Gov. Frank Frantz of Oklahoma spoke on "What Statehood Means to Oklahoma.'

in response to the toast, "Kansas," Gov. Hoch said in part;

epolitically the territory west of the Mississippi is soon to predominate in ational councils and therefore to exert nowerful influence in world movements. it requires no prophetic ken to see this. It is one of the certainties of the not remote future. The wisdom of ordinary prudence therefore should long ago have suggested that too many large giates should not be carved out of termory ultimately capable of sustaining smaller ones, because in the senate, where most of our political power is ledged, a small state counts as much as a large one, and it is easier to make a

St. Louis, April 17 .- Referring to the igfield lynching, Gov. Folk said

"We have recently had an occur-rence in our state that has shocked the clivized world. the negro, and he shot to save his life
and the honor of the lady he was escorting. His act was courageous and
was entirely blameless in the eyes of
the law. Conscious of the righteousthe law. Conscious of the righteous-ness of what he had done, he went to the authorities and gave himself up. He was promptly and properly dis-charged. If the members of the mob think they did a manly thing, why do they not bravely give themselves up and have the law take its course as to them? Instead of this, after commithonor of the state they slunk cowardly away into the darkness. Not one will dare admit publicly his connection with the infamous proceedings. But if they thought they were merely putting to death three negroes they were mistaken. They aimed at the assassination of the state of Missouri and insulted the majesty of the law. If such conduct be tolerated it will lead to an-archy. It takes many years to make a civilized, law-abiding man out of the savage. It only takes a few minutes to make a savage out of a civilized man."

OL THE COD LIVER PREPARATION WITHOUT OIL

Vinol is fast superseding old-fashioned cod liver oil and emulsions because, without a drop of oil or disagreeable feature, it contains all the medicinal elements of cod liver oil, actually taken from fresh cods' livers. By our process the oil, having no value either as a medicine or food, is separated from the medicinal elements and thrown away. Unlike old-fashioned cod liver oil and emulsions, Vinol is deliciously palatable, agreeable to the weakest stomach, and therefore unequaled as a body builder and strength creator for old people, puny children, weak, run-down men and women, after sickness, and for all pulmonary diseases. Everything Vinol contains is named on the label.

OUR GUARANTEE - We have such faith in VINOL that if you will take it we promise if it does not benefit or cure you we will return you your money without question. We take all the risk.

Tillman Calls up Resolution for Investigation, Which is Referred.

WILL BE OF BOTH PARTIES.

Announces His Conviction That the National Banks Are Now Contributing.

Washington, April 17 .- Preceding the taking up of the railroad rate bill in the senate today, Mr. Tillman called up his resolution directing the senate committee on finance to enter upon an investigation of the question of campaign contributions by the national banks, and after he had spoken at length the resolution was referred to the finance committee.

In his speech Mr. Tillman read a letter from a New York banker suggesting that the auditor of the Republican national committee should be called to give restimony concerning the contribu-tions to the Republican fund of the last campaign. Mr. Tillman said that he would not confine the inquiry to the Republican committee, but would ex-tend it to the Democratic committee. He again referred to the affairs of the Waish bank of Chicago, and in that connection was engaged in sharp controversy by Mr. Hopkins, who declared the Walsh bank not to be insolvent. He also said, in reply to a question from Mr. Tillman that Mr. Walsh had not seen indicted.

Mr. Foster spoke for almost three hours on the rate bill, contending for the validity of the proposed legisla-tion, urging its necessity to check the tion, urging its necessity to check the growing powers of the railroads and announcing his support of a broad court review with a prohibition against the temporary injunctions in rate cases by the inferior federal courts. When he concluded he was warmly congratulated by many of his colleagues.

Mr. Tiliman said that he had been told that the total contributions to the Republican fund in 1896 had been \$3.800.000; in 1900, \$2.800.000, and in 1904.

0,000; in 1900, \$2,800,000, and in 1904,

Mr. Tiliman read a letter in which the suggestion was made that if it was considered desirable to get at the de-tails concerning the Republican cam-paign contributions the committee paign should examine Auditor Anthony of the Republican national committee, who, he said, could give a complete list of all the contributors. He added that state-ments of contributors and of those who did not contribute were made periodi-cally, and that the president knew who they were. The sam

He would have both parties investigated and wanted the committee to send for the chairman party, as well as the chairman and auditor of the Republican committee.

ELECTRIC COMPANIES MERGER DECISION.

St. Paul, April 17.-Judge Sanborn, i st. Faut. April 17.—Judge Sanborn, in the court of appeals, today handed down an opinion in the case of Morgan Jones, appellant, versus the Missouri Edison Electric company et al. The case involved the merger of all electric and power companies of St. Louis, and if the statements of the plaintiffs are true involves an attemnt to freeze are true, involves an attempt to freeze out by means of alleged stock manipu-lation some of the minority stockhold ers from the merger. The circuit court below sustained the demurrer and the

decision of Judge Sanborn today re-verses that decision.

The alleged facts set forth in the apellant's brief, in substance, are that e North American company, a New Jersey corporation, arranged to con-solidate all the electric light and power companies operating in St. Louis in one ompany, thereby dispensing with com-

North American company se-The North American company se-cured three-fifths shares of the stock of the partleipating companies, and it is alleged then began a scheme to deprive Jones and a few others of the minority Jones and a few others of the minority stockholders who owned preferred stock of their equity. A \$10,000,000 corporation was formed, Common stock was bought up and the preferred depreciated until it fell to about 50 per cent of its par value, and at the same time effort was being made to increase the value of the common stock. The plaintiffs allege this is an injustice to their holdings. The demurrer held that the petition did not state sufficient facts to constitute causes of action.

Judge Sanborn practically holds that Judge Sanborn practically holds that there is basis for an action and while the issue was not exactly the legality of the corporation, the forming of that merger was legal under the Missouri
